

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poison and blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves become inflamed and waste away cell by cell. Kidney troubles almost always result from a disarrangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling today you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney and bladder remedy. It cures inability to hold urine and swelling of the bladder, and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Sons, 1010 Broadway, New York. When writing mention reading this advertisement in this paper. Don't make any mistake in remembering the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Poughkeepsie, N. Y., on every bottle.

Hidden Money.
One day last week while Fred Stanley, Will Ellis and other workmen were engaged in building a road to the wood lot on the Ellsworth Paper Farm, East Hartford, recently purchased by G. H. Johnson of Canton, they found it necessary to use dynamite to dislocate a stump which obstructed the passage.

Great was the surprise, when after the explosion occurred, to see floating in the air, fragments of paper currency. The men gathered quite an amount of the remains of the bills, many of which were of large denominations. These pieces have been sent to Washington for redemption.

How the money came to be there is a mystery.

He returned home in 1869, worked on the farm two years, then clerked for O. C. The Paragraph Pulpit.

BY EDWIN A. THURMALL.
"Your heavenly Father knoweth what you have need of, before you ask him," then why ask him? God has made a way for the supply of all our needs. He employs, never creates, forces to serve us. Prayer is never a "short cut" to the obtaining of our good. Large numbers of Christian prayers are only beautifully phrased plous grumblings at God's way of ruling the universe. In the highest spiritual life there is no prayer in the sense of request. The true child of God quietly leaves things with God.

We ask because we want, but God yields nothing to our wants, only that which He wants. We ask because we fear, but God yields nothing to our fears. The best way to trust God is to sail on through the gales of life, not caring whether we sink or float, that is God's to look after. Let us be content with God's world and cease that fault-finding which we call praying. There is no adequate evidence that God gives any man his daily bread as the result of prayer.

The psalmist says he never saw the righteous begging bread, but then he did not know there would be a London slum or an Indian famine. Prayer is no means to material blessings, such blessings are very unequally distributed.

In some businesses the better man you are the more likely are you to fail. But no man co-operates with God for spiritual ends, that is, for the erection of a good character, and finds failures, for all the events of life, sad and glad, tend to produce it.

Every assertion of our will is only good when it is also God's will.

Old Fashioned Serenade.
About 70 of the neighbors and friends of C. H. Flood of Oxford gathered near his home and were entertained by the house, Monday evening at 8 o'clock, and gave Principal and Mrs. Clarence N. Flood of Winslow a good, old-fashioned serenade. The people in the vicinity knew that the newly married couple had arrived for a visit to their parents, and so a great surprise was planned for Monday evening.

The band of forces was guided by Robert C. Thomas, who acted as the leader. The band was made up of circular saws, old pans, horns, etc.

The members of the orchestra had so great a success that they are now planning on giving another free concert in a short time to another newly married couple in this vicinity. The leader is in hopes by one more practice that his musical parts will be in such a condition that his services will be at a premium.

During the evening all took part and played games on the lawn. Even the older ones enjoyed such games as Chase the Squirrel and Drop the Handkerchief. Robert, who claims to be 70 and Herbert 65, did remarkable running and managed to catch the young girls after some sprightly sprinting. It was a case of working upon the nerves and the effects were a rest of two days immediately after the event.

After an hour socially refreshments, consisting of ice cream, cake and cigars were served.

The party broke up at 11 o'clock, all having enjoyed a pleasant evening.

Fighting the "White Plague."
Maine's institution is accredited with being among the very first in successful treatment of tuberculosis. A delegation sent by the state of Ohio to our system last year stated of all institutions visited, Hebron was the most efficient and practical in means employed to handle the disease. There is now most encouraging evidence that through the help of modern sanatorium treatment the ravages of tuberculosis can be in a great measure overcome if the financial means necessary to enlarge the accommodations and provide equipment and attendants sufficient to meet the needs of the State can be secured.

There is a pressing need for additional money to enlarge the accommodations at Hebron in order that the hundreds now seeking admission from every part of Maine may not have to be turned away. There is a shortage of funds for current expenses as well, and no one able to donate a small gift or a large one can find a nobler use for his benevolence. Let the expensive monuments, churches, and colleges wait until the "White Plague" has been sanitized from our State.—[Maine Farmer.]
